

# AFRED Video Lending Library

Check out a training tape for your next staff or customer propane safety training. Call Eileen Latham at (800) 64-CLEAR or e-mail [eileen.latham@rrc.state.tx.us](mailto:eileen.latham@rrc.state.tx.us).

1	AFRED	<b>Using Propane Like a Pro (12 min.)</b> Randy White, former Dallas Cowboy, demonstrates safe refueling of propane vehicles.
2	AFRED	<b>Propane in the Home – Your Clean Alternative (8 min.)</b> Strong marketing tool for customers considering building an all-propane home or converting from electricity.
3	AFRED	<b>Propane Fuel Stations – The Good Neighbor (11 min.)</b> Detailed look at safety features of propane storage and transportation, as well as safety features inherent in the dispensing of propane.
4	NPGA	<b>OPDs: A Revolution in Propane Cylinder Safety #00980 (10 min.)</b> Introduces employees to Overfill Prevention Devices required on all 4-40 lb cylinders
5	NPGA	<b>Using Propane Safely at Construction Sites #00997 (13 min.)</b> Instructs customers on safe use of propane and propane cylinders at construction sites. Fairly technical.
6	NPGA	<b>Using Propane-Powered Lift Trucks #0996 (15 min.)</b> Helps train forklift operation personnel on safe handling of propane.
7	NPGA	<b>Dispensing LP-Gas Safely (21 minutes)</b> Based on 1986 edition of NFPA 58. Does not address OPD requirements or RIN registration of recertification facility. Otherwise, good information.
8	NPGA	<b>Water Heating (16 minutes)</b> Good solid presentation. New flash suppressor requirements on water heaters not mentioned.
9	PERC	<b>Propane Marketer Sales Training for the Manufactured Home Market 008255 (10 min.)</b>
10	PERC/ NPGA	<b>Installing Propane Vapor Distribution Systems #004265 (1 hour 12 min.)</b> Excellent training video for residential or commercial installations. Developed as companion to CETP curriculum or propane marketer company training. <ul style="list-style-type: none"> <li>• Introduction (2:13)</li> <li>• Developing Installation Specifications and System Layout (11:24)</li> <li>• Preparing Storage Containers for Installation (10:36)</li> <li>• Installing an Aboveground ASME Container (9:36)</li> <li>• Installing an Underground ASME Container (17:51)</li> <li>• Installing DOT Cylinders (7:44)</li> <li>• Installing Meters (4:43)</li> <li>• Leak Checking and Regulator Performance Tests (7:52)</li> </ul>
11	NPGA	<b>Propane Delivery #004260 (1 hr. 39 min.)</b> Adds to training of employees who deliver propane or fill propane storage containers. Developed as a companion to CETP curriculum or propane marketer company training. <p>Introduction (2:00)</p> <p>Part 1. Inspecting, Maintaining and Operating Delivery Vehicles</p> <ul style="list-style-type: none"> <li>• Inspection, Maintenance and Repair Record Compliance (12:00)</li> <li>• Inspecting and Maintaining Vehicles (16:00)</li> <li>• Emergency Response Driving Techniques (6:00)</li> <li>• Parking and Garaging of Vehicles (5:00)</li> </ul> <p>Part 2. Filling Storage Containers</p> <ul style="list-style-type: none"> <li>• Identifying Storage Containers (5:00)</li> <li>• Filling Portable Storage Containers and Cargo Tanks (18:00)</li> </ul> <p>Part 3. Making Customer Deliveries</p> <ul style="list-style-type: none"> <li>• Using a Cylinder Delivery Vehicle (11:00)</li> <li>• Using a Bulk Delivery Vehicle (11:00)</li> <li>• Evacuating an ASME Stationary Tank (13:00)</li> </ul>
12		<b>Manchester Forklift Cylinders (13:15 minutes)</b> Covers design, filling and inspection of forklift cylinders.
13		<b>Forklift Mechanic Safety – Hazardous Materials (18 minutes)</b> Good overall safety information; small portion pertaining to propane specifically.
